Dear Harry,

12/16/81

Glad that it appears fairly certain your book will be published overseas. Congratulations! However, I cannot prepare an appendix for inclusion. As I offered before, you are welcome to use the material I suggested to DuBois and you can get copies from Cesar.

It is not merely that I can't find time to do my own work, although that was true.

Jill fell down yesterday and suffered a bad ankle sprain. The doctor says she'll be off the leg for six weeks. Fortunately, he did not order her to bed, so she is learning to get around with my wheelchair, today forst day at it. However, I have to tend to her needs and take care of the housem food, etc., in addition to all else.

Please understand if I fail to respond to a letter.

Thanks for the xerox of the doctor's statement. He is pretty pointed and unequivocal.

Glad it begins to look a though your luck has turned.

Sincerely,
